Ver 1.1

Heart Rate Monitor

LED lights and an electro-optical cell "sense" the volume of blood under the skin. From there, sophisticated algorithms are applied to the pulse signal so that the heart's true rhythm can be detected, even while running at performance speeds.

IPX-7 Waterproof

PD199 Bluetooth Heart Rate Monitor bracelet can be used under water 3 meters.

"Smart-iMovement" App for Android/iOS

supports Android phone 4.3 or higher/iOS 6.1 higher

Heart rate monitor bracelet supports Sleeping Monitoring
